

FOR IMMEDIATE RELEASE: 08 March 2023

Blockchain at OLA

Abingdon-on-Thames, Oxfordshire – Our Lady's Abingdon partners with Vizidox Solutions to implement Blockchain Technology

Our Lady's Abingdon, a leading independent school in Oxfordshire, has partnered with Vizidox Solutions Limited, a UK-based Blockchain technology company, to implement Blockchain Technology in their school records management system. Our Lady's Abingdon, already well on their way to being a Microsoft Showcase School, is set to become one of the first schools in the UK to adopt this cutting-edge technology.

Blockchain technology provides a secure and tamper-proof way of recording and sharing data. By implementing Blockchain, Our Lady's Abingdon will be able to streamline their records management system, making it more efficient, sustainable, and secure.

The use of Blockchain technology in schools offers many benefits, including:

- Sustainability: Using Blockchain technology can significantly reduce paper usage and carbon footprint, making it an eco-friendly option for schools.
- Safeguarding records: Blockchain provides a tamper-proof way of recording and sharing data, which enhances security and safeguards student records from unauthorised access or manipulation.
- Ownership of credentials: Students will have access to their records over the Blockchain, allowing them to own their credentials forever. This will make it easier for students to share their academic records and transcripts with employers or other educational institutions when required.
- Enhanced efficiency: Blockchain can automate and streamline administrative processes, which saves time and money, allowing staff to focus on core activities such as teaching and learning.

By implementing Blockchain technology, Our Lady's Abingdon is taking a bold step towards embracing innovation in education. The school is committed to providing its students with the best possible education and the use of Blockchain technology will enhance the school's records management system, providing a more efficient, secure, and sustainable solution.

BOILER PLATE

OLA (Our Lady's Abingdon) is a Catholic independent day school for students aged 7 to 18, offering a highly successful fun and innovative learning experience in a happy and friendly community.

The school's success comes from a combination of six key factors which create the unique OLA learning adventure:

1. **Small school:** With under 400 pupils in total, OLA offers everyone the possibility of representing the school in a wide range of confidence-developing activities, including sport, drama, music, academic competitions and other chances to thrive, such as the Duke of Edinburgh's Award.
2. **Small classes:** We have a very high teacher to pupil ratio, meaning our class sizes are smaller than you will find elsewhere. OLA provides a more individual learning experience that fully nurtures academic potential.
3. **Fun and innovative learning:** Helps pupils to be fully engaged in the academic life of the school leading to exam results that regularly exceed pupil baseline predications. Find out more about our exam results.
4. **Highly praised pastoral care:** Our staff work closely alongside our pupils to encourage, motivate and support each child, helping them to grow as confident, successful and happy individuals.
5. **Family community:** OLA encourages an open dialogue between home and school through a range of effective channels.
6. **Catholic Christian ethos:** This is the foundation of everything we do, creating the family community so valued by OLA parents. The school accepts children of all faiths and none and helps them aspire to such values as integrity, compassion, openness, forgiveness, reconciliation, co-operation and courage.
