

OUR LADY'S ABINGDON (OLA)

SEXUAL VIOLENCE AND SEXUAL HARASSMENT POLICY (Inc Sexual violence and sexual harassment)

This policy, which applies to the whole school, is publicly available on the school website and upon request a copy (which can be made available in large print or other accessible format if required) may be obtained from the School Office.

Document Details

Information Sharing Category	Public Domain
Version	2
Date Published	January 2022
Authorised by (if required)	The Governing Board
Responsible Area	Leadership Team and Head

We comply with the Government guidance and regulations, currently in force, regarding COVID.

Availability: All who work, volunteer or supply services to our school have an equal responsibility to understand and implement this policy and its procedures both within and outside of normal school hours, including activities away from school. All new employees and volunteers are required to state that they have read, understood and will abide by this policy and its procedural documents and confirm this by signing the Policies Register.

Monitoring and Review: This document will be subject to continuous monitoring, refinement and audit by the Head. This document was reviewed and agreed by the Governing Board in January 2022 and if significant changes to the systems and arrangements take place, or if legislation, regulatory requirements or best practice guidelines so require, prior to January 2023, the policy will be reviewed accordingly.

1. Aims

This policy aims to outline our procedures and working practices to deal with and minimise the risk of sexual violence and sexual harassment. We aim to:

- Define what is meant by sexual violence and sexual harassment – its indicators
- Outline what our procedures are in dealing with an allegation or suspected case of sexual violence and sexual harassment
- Explain how we minimise the risks of sexual violence and sexual harassment, including other forms of peer on peer abuse
- Detail the support for victims of sexual violence and sexual harassment, including the use of external agencies

2. Introduction

The Governing Board, Executive Leadership Team, Leadership Team, and all staff and volunteers at OLA are committed to the prevention, early identification and appropriate management of sexual violence and sexual Harassment (as defined below) both within and beyond OLA. In particular, we:

- believe that in order to protect children, we need to be aware of the level and nature of risk to which their students are or may be exposed, and put in place a clear and comprehensive strategy which is tailored to our specific safeguarding context; and take a contextual whole-school approach to preventing and responding to sexual violence and sexual Harassment;
- regard the introduction of this policy as a preventative measure, and do not feel it is acceptable merely to take a reactive approach to sexual violence and sexual Harassment in response to alleged incidents of it;
- recognise national and increasing concern about this issue, and wish to implement this policy in order to ensure that our students are safe; and
- encourage parents to hold us to account on this issue, so that if their child is feeling unsafe as a result of the behaviour of any of their peers, they should inform OLA, so that it can ensure that appropriate and prompt action is taken in response.

This Policy:

- sets out our strategy for preventing, identifying and appropriately managing sexual violence and sexual Harassment. It is the product of a comprehensive consultation - which has involved students, staff and parents, and a risk assessment;

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

- applies to the Governing Board, Executive Leaders, Leadership Team, staff, volunteers and contractors etc. It is reviewed annually, and updated in the interim, as may be required, to ensure that it continually addresses the risks to which students are or may be exposed. A number of staff and students are involved in each annual review, which involves and is informed by an assessment of the impact and effectiveness of this policy over the previous year
- is OLA's overarching policy for any issue that could constitute sexual violence and sexual Harassment.
- It relates to, and should be read alongside, the OLA's child protection policy and any other relevant policies including, but not limited to, *anti-bullying (including cyber-bullying), E-safety, students missing education, Positive Behaviour Code and data protection*;
- does not use the term 'victim' and/or 'perpetrator'. This is because our School takes a safeguarding approach to all individuals involved in allegations of or concerns about sexual violence and sexual Harassment, including those who are alleged to have been abused and those who are alleged to have abused their peers, in addition to any sanctioning work that may also be required for the latter. Research has shown that many children who present with harmful behaviour towards others, in the context of sexual violence and sexual Harassment, are themselves vulnerable and may have been victimised by peers, parents or adults in the community prior to their abuse of peers;
- uses the terms 'child' and 'children', which is defined for the purposes of this policy as a person aged under 18. We have nonetheless chosen not to restrict our approach to sexual violence and sexual Harassment under this policy to children but instead to adopt a wider interpretation of our safeguarding responsibilities so that they apply to all students, regardless of age. Although the starting point is that OLA's response to sexual violence and sexual Harassment should be the same for all students, regardless of age, there may be some additional considerations in relation to a student aged 18 or over in terms of how local agencies and/or partners respond. This, for example, is likely to be different on the part of local authorities, given that their safeguarding duties are limited, in the case of children's social care services - save for a number of specific exceptions - to children and, in the case of adult social care services, to adults with care and support needs. Similarly, the OLA's response to incidents involving the exchange of youth produced sexual imagery will need to differ depending on the age of the students involved. There is also likely to be a more significant criminal justice response in relation to any student responsible for abuse who is aged 18 or over;
- uses the term victim(s) and alleged perpetrator(s) and where appropriate perpetrator(s). However, we are conscious of using these terms when speaking in front of children and may use terms which the individual child is most comfortable with.
- should be read in conjunction with the Local Safeguarding Children Partnership's (LSCB) Safeguarding Policy and Procedures, and any relevant Practice Guidance issued by it.

3. What is Peer on Peer abuse, Sexual Violence and Sexual Harassment?

For these purposes, peer on peer abuse is any form of physical, sexual, emotional and financial abuse, and coercive control, exercised between children and within children's relationships (both intimate and non-intimate). Peer on peer abuse is most likely to include, but may not be limited to:

- bullying (including cyberbullying, prejudice-based and discriminatory bullying);
- Peer on peer abuse can take various forms including serious physical and/or emotional bullying (including cyber-bullying), relationship abuse, domestic violence, child sexual exploitation, youth and serious youth violence, harmful sexual behaviour, and/or gender-based violence.
- abuse in intimate personal relationships between peers;
- physical abuse which can include hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm;
- sexual violence, such as rape, assault by penetration and sexual assault;
- sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment;
- non-consensual sharing of nudes and semi-nude images and/or videos;
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party;
- up skirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification or cause the victim humiliation, distress or alarm; and
- initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element.

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

These types of abuse rarely take place in isolation and often indicate wider safeguarding concerns. For example, a teenage girl may be in a sexually exploitative relationship with a teenage boy who is himself being physically abused by a family member or by older boys. Equally, sexual bullying in schools and other settings can result in the sexual exploitation of children by their peers. For 16- and 17-year olds who are in abusive relationships, what may appear to be a case of domestic violence may also involve sexual exploitation. Children's experiences of abuse and violence are rarely isolated events, and they can often be linked to other things that are happening in their lives and spaces in which they spend their time. Any response to peer-on-peer abuse, therefore, needs to consider the range of possible types of peer on peer abuse set out above and capture the full context of children's experiences. We do this by adopting a Contextual Safeguarding approach and by ensuring that our response to incidents of peer-on-peer abuse takes into account any potential complexity.

4. Sexual Violence and Sexual Harassment between children

Context: Sexual violence and sexual harassment can occur between two children of any age and sex from primary through to secondary stage and into sixth form. It can occur through a group of children sexually assaulting or sexually harassing a single child or group of children. Sexual violence and sexual harassment exist on a continuum and may overlap; they can occur online and face to face (both physically and verbally) and are never acceptable. As set out in Part one of Keeping children safe in education (KCSIE), our staff working with children maintain an attitude of *'it could happen here'*.

We have a duty to be aware of, and respond appropriately to all reports and concerns, including those outside the school and online. We make it clear to our staff and students that we have a zero-tolerance approach to sexual violence and sexual harassment and it is never acceptable, and it will not be tolerated and it should never be passed off as "banter", "just having a laugh", "part of growing up" or "boys being boys". We challenge physical behaviour (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. We train our staff that dismissing or tolerating such behaviours risks normalising them; and not recognising, acknowledging or understanding the scale of harassment and abuse and/or downplaying some behaviours related to abuse, as it can lead to a culture of unacceptable behaviour, an unsafe environment and in worst case scenarios a culture that normalises abuse. This can lead to children accepting it as normal and not coming forward to report it. We understand that all of the above can be driven by wider societal factors beyond OLA, such as everyday sexist stereotypes and everyday sexist language.

Sexual Violence: At Our Lady's Abingdon, we take our definition of sexual violence from the Sexual Offences Act 2003, which considers rape, assault by penetration and sexual assault all types of sexual violence. The school recognises that sexual violence can happen both inside and outside of school which can occur online and offline. When referring to sexual violence we are referring to the sexual offences as described below:

Rape: A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.

Assault by Penetration: A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.

Sexual Assault: A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents. (Schools should be aware that sexual assault covers a very wide range of behaviour so a single act of kissing someone without consent or touching someone's bottom/breasts/genitalia without consent, can still constitute sexual assault.)

Causing someone to engage in sexual activity without consent: A person (A) commits an offence if: s/he intentionally causes another person (B) to engage in an activity, the activity is sexual, B does not consent to engaging in the activity, and A does not reasonably believe that B consents. (This could include forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.)

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

What is consent? Consent is about having the freedom and capacity to choose. Consent to sexual activity may be given to one sort of sexual activity but not another, e.g. to vaginal but not anal sex or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity and each time activity occurs. Someone consents to vaginal, anal or oral penetration only if s/he agrees by choice to that penetration and has the freedom and capacity to make that choice.

Sexual violence and sexual harassment can be between two children, or a group of children. Both sexes may be affected, although girls are more likely to be victims of sexual violence, and boys are more likely to be perpetrators of sexual harassment. We recognise that children with Special Educational Needs and Disability (SEND) are likely to be more vulnerable. Children can also abuse their peers online, this can take the form of abusive, harassing, and misogynistic messages, the non-consensual sharing of indecent images, especially around chat groups, and the sharing of abusive images and pornography, to those who do not want to receive such content. In all cases, if staff are unsure, they will discuss this with the DSL.

Sexual Harassment: When referring to sexual harassment we mean ‘*unwanted conduct of a sexual nature*’ that can occur online and offline and both inside and outside of school. Sexual harassment is likely to violate a child’s dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment. We make it clear that all forms of sexual violence and harassment are unacceptable and will not be tolerated. Whilst not intended to be an exhaustive list, sexual harassment can include:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names;
- sexual “jokes” or taunting;
- physical behaviour, such as: deliberately brushing against someone, interfering with someone’s clothes (this may cross a line into sexual violence) and displaying pictures, photos or drawings of a sexual nature; and
- online sexual harassment. This may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence. It may include:
 - consensual and non-consensual sharing of nude and semi-nude images and videos. As set out in [UKCIS Sharing nudes and semi-nudes: advice for education settings working with children and young people](#) (which provides detailed advice for schools and colleges) taking and sharing nude photographs of U18s is a criminal offence;
 - sharing of unwanted explicit content;
 - upskirting (is a criminal offence);
 - sexualised online bullying;
 - unwanted sexual comments and messages, including, on social media;
 - sexual exploitation; coercion and threats.

Harmful Sexual behaviours: As the NSPCC explains “children's sexual behaviours exist on a wide continuum, from normal and developmentally expected to highly abnormal and abusive and violent”. Our Staff recognise the importance of distinguishing between problematic and abusive sexual behaviour. As both problematic and abusive sexual behaviours are developmentally inappropriate and may cause developmental damage, a useful umbrella term is *harmful sexual behaviours or HSB.*” This term has been adopted widely and is used throughout the NSPCC’s and Research in Practice’s [Harmful Sexual Behaviour Framework](#), as well as this policy. For the purpose of this policy, harmful sexual behaviours are defined as:

Sexual behaviours expressed by children, that are developmentally inappropriate, may be harmful towards self or others, or be abusive towards another child or adult.

Key staff are trained to use the Brook Sexual Behaviours Traffic Light Tool to demonstrate the range of sexual behaviours presented by children, when seeking to understand a student's sexual behaviour and deciding how to respond to it.

https://www.brook.org.uk/brook_tools/traffic/Brook_Traffic_Light_Tool.pdf

Staff should always use their professional judgment and discuss any concerns with the DSL. Where an (alleged) incident involves a report of sexually harmful behaviour, staff should consult the DfE’s Advice.

5. Contextual Safeguarding

This policy encapsulates a Contextual Safeguarding approach, which:

Our Lady’s Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

- is an approach to safeguarding children that recognises their experiences of significant harm in extra-familial contexts, and seeks to include these contexts within prevention, identification, assessment and intervention safeguarding activities;
- recognises that as children enter adolescence they spend increasing amounts of time outside of the home in public environments (including on the internet) within which they may experience abuse; and
- considers interventions to change the systems or social conditions of the environments in which abuse has occurred. For example, rather than move a child from a school, professionals could work with the school leadership and student body to challenge harmful, gendered school cultures, thus improving the pre-existing school environment.

At OLA we recognise that young people's behaviours, levels of vulnerability and levels of resilience are all informed by the social, public and private, contexts in which young people spend their time. Additionally, we help to promote a culture of safety within the curriculum and around OLA regarding students' online activities – a place where young people spend an increasing amount of time, raising their exposure to potential abuse.

6. Other behaviour

When dealing with other alleged behaviour which involves reports of, for example, emotional and/or physical abuse, staff can draw on aspects of Hackett's et al's (2016) continuum within the *harmful sexual behaviours or HSB framework* to assess where the alleged behaviour falls on a spectrum and to decide how to respond. It should be borne in mind that there are some aspects of Hackett's continuum which may not of course be relevant or appropriate to consider in response to other alleged behaviour involving reports of other types of abuse. For example, the issue of consent and the nuances around it, is unlikely to apply in the same way in cases where the alleged behaviour is reported to involve emotional and/or physical abuse, as it could in cases of alleged sexual behaviour which is reported to involve harmful sexual behaviour.

In addition, OLA could be required to deal with cases involving a range of alleged behaviours including sexual behaviour, emotional, physical behaviour and digital behaviour. It should also be recognised that the same behaviour presented by different children may be understood at different points on a spectrum, depending on the particular context. For example, an incident involving youth produced sexual imagery may be inappropriate in one context, for example, when exchanged between two children in a consenting relationship, and abusive in another, for example, when it is (a) shared without the consent of the child in the image; (b) produced as a result of coercion; or (c) used to pressure the child into engaging in other sexual behaviours.

Behaviour which is not abusive at first may potentially become abusive quickly or over time. Intervening early and addressing any inappropriate behaviour which may be displayed by a child is vital and could potentially prevent their behaviour from progressing on a continuum to become problematic, abusive and/or violent - and ultimately requiring (greater/more formal) engagement with specialist external and/or statutory agencies. For example, a physical fight between two children may not constitute sexual violence and sexual Harassment where the fight is a one-off incident, but may be abusive where the child's/children's behaviour subsequently deteriorates into a pattern of bullying behaviour and requires a safeguarding response from a multi-agency partnership – including a statutory assessment of whether this has led, for example, to a risk of significant harm to a child.

The importance of intervening early and addressing any inappropriate behaviour does not just apply on an individual student basis, but could also apply across the student body.

Behaviour generally considered inappropriate may in fact indicate emerging concerning behaviour to which OLA needs to take a whole-school approach in order to prevent escalation. For example, where multiple boys are making inappropriate comments about girls, one-off sanctions are unlikely to be effective and wider actions should be considered, such as arranging for an external person to deliver a year group intervention exercise; revising OLA's Sex and Relationship Education programme; and/or a discussion around whether anything is happening within the wider community that might be affecting the students' behaviour.

It will also be important to consider the wider context in which the alleged behaviour is reported to have occurred, and which may trigger the need for a referral. For example, some behaviour that is considered inappropriate may be capable of being dealt with internally. However, if there are wider safeguarding concerns relating to the child/children in question, a referral to statutory agencies may be necessary. Where the behaviour which is the subject of the concern(s)/allegation(s) is considered or suspected by the DSL to constitute sexual violence and sexual Harassment, OLA will follow the procedures set out in this policy.

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

7. How can a child who is being abused by their peers be identified?

All staff are alert to the well-being of students and to signs of abuse, and will engage with these signs, as appropriate, to determine whether they are caused by sexual violence and sexual Harassment. However, staff should be mindful of the fact that the way(s) in which children will disclose or present with behaviour(s) as a result of their experiences will differ. Children may not find it easy to tell staff about their abuse verbally.

Signs that a child may be suffering from sexual violence and sexual Harassment can also overlap with those indicating other types of abuse (please see our child protection policy for indicators of abuse) and can include:

- failing to attend school, disengaging from classes or struggling to carry out school related tasks to the standard ordinarily expected;
- physical injuries;
- experiencing difficulties with mental health and/or emotional wellbeing;
- becoming withdrawn and/or shy; experiencing headaches, stomach aches, anxiety and/or panic attacks; suffering from nightmares or lack of sleep or sleeping too much;
- broader changes in behaviour including alcohol or substance misuse;
- changes in appearance and/or starting to act in a way that is not appropriate for the child's age;
- abusive behaviour towards others.

Abuse affects children very differently. The above list is by no means exhaustive and the presence of one or more of these signs does not necessarily indicate abuse. The behaviour that children present with will depend on their particular circumstances. Rather than checking behaviour against a list, staff are trained to be alert to behaviour that might cause concerns, to think about what the behaviour might signify, to encourage children to share with them any underlying reasons for their behaviour, and, where appropriate, to engage with their parents/carers so that the cause(s) of their behaviour can be investigated. Where a child exhibits any behaviour that is out of character or abnormal for his/her age, staff should always consider whether an underlying concern is contributing to their behaviour (for example, whether the child is being harmed or abused by their peers) and, if so, what the concern is and how the child can be supported going forwards.

The power dynamic that can exist between children is also very important when identifying and responding to their behaviour: in all cases of sexual violence and sexual Harassment, a power imbalance will exist within the relationship. This inequality will not necessarily be the result of an age gap between the child responsible for the abuse and the child being abused. It may, for example, be the result of their relative social or economic status. Equally, while children who abuse may have power over those who they are abusing, they may be simultaneously powerless to others.

Any child can be vulnerable to sexual violence and sexual Harassment due to the strength of peer influence during adolescence, and staff should be alert to signs of such abuse amongst all children. Individual and situational factors can increase a child's vulnerability to abuse by their peers. For example, an image of a child could be shared, following which they could become more vulnerable to sexual violence and sexual Harassment due to how others now perceive them, regardless of any characteristics which may be inherent in them and/or their family. Peer group dynamics can also play an important role in determining a child's vulnerability to such abuse. For example, children who are more likely to follow others and/or who are socially isolated from their peers may be more vulnerable to sexual violence and sexual Harassment. Children who are questioning or exploring their sexuality may also be particularly vulnerable to abuse by their peers.

Research suggests that sexual violence and sexual harassment may affect boys differently from girls, and that this difference may result from societal norms (particularly around power, control and the way in which femininity and masculinity are constructed) rather than biological make-up. Barriers to disclosure will also be different. As a result, schools need to explore the gender dynamics of sexual violence and sexual Harassment within their settings, and recognise that these will play out differently in single sex, mixed or gender- imbalanced environments.

8. How we raise awareness of and prevent sexual violence and sexual Harassment

OLA actively seeks to raise awareness of and prevent all forms of sexual violence and sexual Harassment by:

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

- Educating all Governors, Leadership Team, staff and volunteers, students, and parents about this issue. This includes:
- training all Governors, Leadership Team, staff and volunteers on the nature, prevalence and effect of sexual violence and sexual Harassment, and how to prevent, identify and respond to it.

This includes:

- (a) Contextual Safeguarding;
 - (b) the identification and classification of specific behaviours; and
 - (c) the importance of taking seriously all forms of sexual violence and sexual Harassment (no matter how low level they may appear) and ensuring that no form of sexual violence and sexual Harassment is ever dismissed as horseplay or teasing. Training includes case studies which the staff design themselves
- educating children about the nature and prevalence of sexual violence and sexual Harassment via PSHE and the wider curriculum. For example, by addressing gender inequality in a statistics class, or by reviewing literature in an English class which addresses bullying and its effect on mental health. Students are told what to do if they witness or experience discrimination or abuse, the effect that it can have on those who experience it and the possible reasons for it, including vulnerability of those who inflict such abuse. They are regularly informed about OLA's approach to such issues, including its zero-tolerance policy towards all forms of sexual violence and sexual harassment.
-
- Engaging with groups of pupils, both in mixed and single-sex groups to ask for feedback on their views on sexual violence and harassment within the school and what the school can do to prevent this. E.g. We may use the 'map exercise' where pupils indicate where in the school they feel safe/unsafe and why.
- engaging parents on this issue by:
 - (a) talking about it with parents, both in groups and one to one;
 - (b) asking parents what they perceive to be the risks facing their child and how they would like to see the School address risks
 - (c) involving parents in the review of OLA's policies and lesson plans
 - (d) encouraging parents to hold OLA to account on this issue.
- ensuring that all sexual violence and sexual harassment issues are fed back to the OLA's safeguarding team so that they can spot and address any concerning trends and identify students who may be in need of additional support. [This is done by way of a weekly pastoral staff meeting at which all concerns about students (including sexual violence and sexual Harassment issues) are discussed]
 - challenging the attitudes that underlie such abuse (both inside and outside the classroom)
 - working with Governors, Leadership Team, all staff and volunteers, students and parents to address equality issues, to promote positive values, and to encourage a culture of tolerance and respect amongst all members of the OLA community
 - creating conditions in which our students can aspire to and realise safe and healthy relationships
 - creating a culture in which our students feel able to share their concerns openly, in a non-judgmental environment, and have them listened to
 - responding to cases of sexual violence and sexual Harassment promptly and appropriately.

Alongside our whole-school ethos, values and standards of behaviour, we have established a preventative planned curriculum which prepares students for life in modern Britain. This programme considers the age and stage of development for our pupils alongside any SEND needs they may have, tackling such issues as:

- healthy and respectful relationships;

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

- what respectful behaviour looks like;
- consent;
- stereotyping, equality;
- body confidence and self-esteem;
- prejudiced behaviour;
- that sexual violence and sexual harassment is always wrong; and
- addressing cultures of sexual harassment.

This programme forms part of our PSHEE and RSE curriculum. Please see our PSHEE and RSE Policies and Schemes of Work for more detail.

9. Multi-agency working:

OLA actively engages with its local partners in relation to sexual violence and sexual harassment, and works closely with, for example, the local Safeguarding Children Partnership, the MASH, children's social care, and/or other relevant agencies, and other schools. The relationships OLA has built with these partners are essential to ensuring that we are able to prevent, identify early and appropriately handle cases of sexual violence and sexual Harassment. They help OLA:

- (a) to develop a good awareness and understanding of the different referral pathways that operate in its local area, as well as the preventative and support services which exist
- (b) to ensure that our students are able to access the range of services and support they need quickly
- (c) to support and help inform our local community's response to sexual violence and sexual Harassment
- (d) to increase our awareness and understanding of any concerning trends and emerging risks in our local area to enable us to take preventative action to minimise the risk of these being experienced by our students.

OLA actively refers concerns/allegations of sexual violence and sexual Harassment where necessary to Surrey MASH (or equivalent), children's social care, and/or other relevant agencies. This is particularly important because sexual violence and sexual harassment can be a complex issue, and even more so where wider safeguarding concerns exist. It is often not appropriate for one single agency (where the incident cannot be managed internally) to try to address the issue alone – it requires effective partnership working.

What should you do if you suspect either that a child may be at risk of or experiencing sexual violence or sexual harassment by their peer(s), or that a child may be at risk of abusing or may be abusing their peer(s)

- If a student is in immediate danger, or at risk of significant harm, a referral to children's social care (if the student is aged under 18) and/or the police should be made immediately. **0345 050 7666**
- Anyone can make a referral.
- Where referrals are not made by the DSL, the DSL should be informed as soon as possible that a referral has been made. Refer to our Child Protection Policy for further details.

If a member of staff thinks for whatever reason that a child may be at risk of or experiencing abuse by their peer(s), or that a child may be at risk of abusing or may be abusing their peer(s), they will discuss their concern with the DSL without delay (in accordance with our Child Protection Policy) so that a course of action can be agreed.

The Immediate Response to a report

General Principles: It is essential that we handle all concerns/allegations of peer on peer abuse sensitively, appropriately and promptly to ensure current and future victims of sexual violence and sexual harassment feel confident to report or come forward. The way in which they are responded to can have a significant impact on the OLA environment. Any response will:

- include a thorough investigation of the concerns/allegations and the wider context in which they may have occurred (as appropriate)

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

- treat all children involved as being at potential risk - while the alleged perpetrator(s) may pose a significant risk of harm to other children, s/he may also have considerable unmet needs and be at risk of harm themselves. We will ensure that we have a safeguarding response in place for both the victim(s), and alleged perpetrator(s), and additional sanctioning work may be required for the latter
- ensure all victims are reassured that they are being taken seriously, regardless of how long it has taken them to come forward and that they will be supported and kept safe. Abuse that occurs online or outside of the school should not be downplayed and should be treated equally seriously. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report or their experience minimised.

Any response will also take into account:

- that the abuse may indicate wider safeguarding concerns for any of the children involved, and consider and address the effect of wider socio-cultural contexts - such as the child's/children's peer group (both within and outside OLA); family; the School environment; their experience(s) of crime and victimisation in the local community; and the child/children's online presence. Consider what changes may need to be made to these contexts to address the child's/children's needs and to mitigate risk; and
- the potential complexity of sexual violence and sexual Harassment and of children's experiences and consider the interplay between power, choice and consent. While children may appear to be making choices, if those choices are limited they are not consenting;
- the views of the child/children affected. Unless it is considered unsafe to do so (for example, where a referral needs to be made immediately), the DSL should discuss the proposed action with the child/children and their parents and obtain consent to any referral before it is made. OLA will manage the child/children's expectations about information sharing, and keep them and their parents informed of developments, where appropriate and safe to do so.

Reports of sexual violence and Sexual violence and sexual Harassment are often complex and require difficult decisions to be made, on a case-by-case basis, with the DSL taking the lead role, supported by external agencies such as children's social care or the Police. Some situations are statutorily clear: a child under the age of 13 can never consent to sexual activity (the age of consent is 16); sexual intercourse without consent is rape (as defined in law); creating or sharing sexual images or videos of under 18s is illegal, including children making or sharing these themselves.

If a child speaks to a member of staff about sexual violence and sexual harassment that they have witnessed or are a part of, the member of staff will listen to the child and use open language that demonstrates understanding rather than judgement. For further details please see the procedure set out in our Child Protection Policy. A factual record should be made of the concern or allegation, taking the victim seriously, but no attempt at this stage should be made to investigate the circumstances, unless a child is in immediate danger or is at risk of harm, in which case, an immediate referral will be made to children's social care and/or the Police. Additionally, in cases where there is a report of rape, assault by penetration or sexual assault this should be passed to the Police and Children's Social Care by the DSL, though anyone is able to make a referral. All records will be recorded electronically in accordance with our Child Protection Policy.

The DSL will follow the advice for practitioners in: "[What to do if you're worried a child is being abused](#)" and will follow through the outcomes of the discussion and if so advised by Children Social Care, will make a formal referral if the incident meets the referral threshold set by the Local Safeguarding Children Board ensuring effective information sharing with any agencies or other professionals involved. The DSL will ensure good record keeping of related conversations, meeting and communications with a copy of the discussions, and outcomes will be kept securely. Staff should not assume that someone else is dealing with the incident and should discuss concerns with the DSL. Where an incident between two students takes place away from the school, or they attend different schools, the school's duties and procedures remain the same.

Where possible, we will aim to manage reports of sexual violence and sexual harassment with two members of staff present (one being the DSL). Where a report includes an online element, we will follow the 'Searching screening and confiscation' advice (for

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

schools) and the UKCIS [Sharing nudes and semi- nudes: advice for education settings working with children and young people.](#) with staff avoiding viewing or forwarding any illegal images of a child.

OLA Staff are trained as per [Part One of September 2021 KCSIE](#) on how to manage a disclosure and are aware of anonymity in cases where an allegation is progressing through the criminal justice system. OLA will do all it reasonably can to protect the anonymity of any children involved in any report of sexual violence or sexual harassment, including considering the impact of social media and which staff need to know about the report. OLA will make a risk assessment in cases of a report of sexual violence, considering the victim, alleged perpetrator and other children at OLA. Risk assessments will be kept under review. In cases of sexual violence, a professional risk assessment by external specialists may be required, and should be used to inform OLA's own risk assessment. OLA will consider carefully any report of sexual violence or harassment and act in the best interests of the child. OLA will also consider carefully when to inform the alleged abuser, and this may be discussed with relevant agencies. Staff may be expected to participate in any early help assessment, child protection enquiry, strategy discussion or other outcome, following a referral.

Confidentiality: Staff taking a report will not promise confidentiality as it is very likely that it will be in the best interests of the victim to seek advice and guidance from others in order to provide support and engage appropriate agencies, however these will only be agencies who are required to support the children involved and/or be involved in any investigation.

The victim may ask the school not to tell anyone about the sexual violence or sexual harassment. If the victim does not give consent to share information, staff may still lawfully share it, for example, to protect children from harm and to promote the welfare of children. The DSL will balance the victim's wishes against their duty to protect the victim and other children. The designated safeguarding lead (or deputy DSL) will consider the following regarding the sharing of information:

- parents or carers should normally be informed (unless this would put the victim at greater risk);
- the basic safeguarding principle is: if a child is at risk of harm, is in immediate danger, or has been harmed, a referral should be made to children's social care; and
- rape, assault by penetration and sexual assaults are crimes. Where a report of rape, assault by penetration or sexual assault is made, this will be referred to the police.

Where the DSL decides to go ahead and make a referral to children's social care and/or a report to the police against the victim's wishes, this will be handled carefully and sensitively, the reasons will be explained to the victim and appropriate specialist support will be offered.

Action following a report of sexual violence and/or sexual harassment: OLA will carefully consider any report of sexual violence and/or sexual harassment both online and offline, including those that have happened outside of the school. Our DSL is most likely to have a complete safeguarding picture and as such will advise on the school's initial response. Important considerations will include:

- the wishes of the victim in terms of how they want to proceed. Victims will be given as much control as is reasonably possible over decisions regarding how any investigation will be progressed and any support that they will be offered. This will however need to be balanced with the school's duty and responsibilities to protect other children
- the nature of the alleged incident(s), including whether a crime may have been committed and/or whether HSB has been displayed;
- the ages of the children involved;
- the developmental stages of the children involved;
- any power imbalance between the children. For example, is an alleged perpetrator significantly older, more mature or more confident? Does the victim have a disability or learning difficulty?
- if the alleged incident is a one-off or a sustained pattern of abuse (sexual abuse can be accompanied by other forms of abuse and a sustained pattern may not just be of a sexual nature);
- that sexual violence and sexual harassment can take place within intimate personal relationships between peers;
- are there ongoing risks to the victim, other children or OLA staff?

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

- other related issues and wider context, including any links to child sexual exploitation and child criminal exploitation.

We will act in the best interests of the child, following the safeguarding principles set out in [KCSIE \(DfE: September 2021\)](#) and [Sexual Violence and Sexual Harassment between children in schools and colleges](#) (DfE: September 2021), giving immediate consideration to how best support and protect the victim, the alleged perpetrator(s) and any other children involved/impacted.

Managing the report: All cases of sexual violence and sexual harassment will be considered on a case-by-case basis, including when to inform the alleged perpetrator(s). If applicable, this will often take place once guidance has been sought by children's social care and/or the police. Whatever the response, it is under-pinned by the principle that there is a zero-tolerance approach to sexual violence and sexual harassment, and it is never acceptable and will not be tolerated. All concerns, discussions, decisions and reasons for decisions should be recorded (written or electronic). Dependent on the disclosure of report, OLA will consider (in particular cases in conjunction with children's social care) the following courses of action:

- **Manage internally:** In some cases of sexual harassment, for example, one-off incidents, OLA may take the view that the children concerned are not in need of early help or require referrals to be made to statutory services and that it would be appropriate to handle the incident internally, perhaps through the Positive Behaviour Code and by providing pastoral support. Moreover, if a pattern of behaviour between peers emerges which is inappropriate or problematic, OLA will engage and seek advice from external specialists for support.
- **Undertake/contribute to an inter-agency early help assessment:** In line with point 1 above, OLA may decide that the children involved do not require referral to statutory services but may benefit from early help. Early help means providing support as soon as a problem emerges, at any point in a child's life. Providing early help is more effective in promoting the welfare of children than reacting later. Early help can be particularly useful to address non-violent HSB and may prevent escalation of sexual violence. These services may, for example, include CAMHS, a specialist harmful sexual behaviour team, and/or youth offending services.
- **Refer child/children to children's social care:** Where a child has been harmed, is at risk of harm, or is in immediate danger, OLA will make a referral to our local children's social care. At the point of referral, OLA will generally inform parents or carers, unless there are compelling reasons not to. Any such decision should be made with the support of children's social care. If a referral is made, children's social care will then make enquiries to determine whether any of the children involved are in need of protection or other services. The DSL will work alongside the relevant lead social worker, ensuring the best possible package of coordinated support is implemented for the victim and, where appropriate, the alleged perpetrator(s) and any other children that require support. OLA will not wait for the outcome of any investigation from children's social care before protecting the victim and other children in the school and may involve other agencies (including early help) immediately.
- **Report to the Police and Children's Social Care:** in cases where rape, assault by penetration or sexual assault is reported, this will ordinarily be reported to the Police (in parallel to Children's Social Care). However, there are some circumstances where it may not be appropriate to report such behaviour to the Police. For example, where the exchange of youth produced sexual imagery does not involve any aggravating factors. All concerns/allegations will be assessed on a case by case basis, and in light of the wider context. However, OLA will not wait for the outcome of a Police investigation before protecting the students involved and other children at OLA. The DSL will work closely with the Police to ensure that OLA's actions do not jeopardise the Police investigation. If a child is convicted or cautioned, OLA will update the risk assessment and consider suitable action through the behaviour management policy.

It is important for OLA to ensure the students involved in the allegation remain protected, especially from bullying or harassment. Where no further action is taken, or a child found not guilty, OLA will continue to support the students involved.

How students involved in sexual violence and sexual harassment will be supported:

All students involved, are treated as being 'at risk'; a thorough risk-assessment and risk-based decision-making (with the benefit of the advice of statutory authorities, where appropriate) will be carried out with a view to ensuring the safety of all students and that example, whether the accused student should be removed from OLA for a period, or removal of the alleged abuser from

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

classes and any transport etc which is shared with the student who has been abused, whether contact with certain individuals should be prevented or supervised, the availability of counselling such as referring students to an external safeguarding agency such as [ChildLine](#) and [NSPCC](#) and the adequacy of arrangements for listening to children etc.

Additionally:

- Support for the victim will consider their age, the nature of the allegations and the risk of further abuse; an alleged perpetrator may have unmet needs themselves.
- The needs and wishes of the victim will be paramount, and they will be able to continue their normal routine as far as possible.
- OLA will be prepared to support a victim over a long period of time.
- Where the victim or perpetrator moves to another school it is important that the new establishment is made aware of any ongoing support needs.
- OLA must ensure the both parties are safeguarded, providing students with education and support as necessary.
- OLA may discipline the alleged abuser, including while the Police or social care investigation is ongoing, although they will liaise with these bodies to assist in determining any sanctions.
- OLA will be clear about when their actions are to support the victim or perpetrator, and when their actions are to discipline the perpetrator for their past conduct.
- A student against whom an allegation of abuse has been made may be excluded from OLA for a fixed period during the investigation: OLA's Positive Behaviour Code will apply.
- All information related to reports and assessments will be managed and protected in accordance with our Data Protection and the Confidentiality and Information Sharing policies.

If it is necessary for a student to be interviewed by the Police in relation to allegations of abuse, OLA will ensure that, subject to the advice of Children's Social Care, the student's parents are informed as soon as possible and that the student is supported during the interview by an appropriate adult. Normally, the DSL will try to discuss any concerns about a child's welfare with the family and where possible to seek their agreement to making a referral to MASH if necessary. However, in accordance with DfE guidance, this will only be done when this will not place the child at increased risk. The child's views will also be taken into account. Where there are doubts or reservations about involving the child's family, the DSL should clarify with MASH or the Police whether, and if so when and by whom, the parents should be told about the referral. This is important in cases where the Police may need to conduct a criminal investigation. Where appropriate, the DSL should help the parents understand that a referral is in the interests of the child and that OLA will be involved in the enquiry or Police investigation. In the case of students whose parents are abroad, the student's Education Guardian will be requested to provide support to the student and to accommodate him / her if it is necessary to exclude him / her during the investigation.

Where neither social services nor the Police accept the complaint, a thorough school investigation should take place into the matter using OLA's usual disciplinary procedures. In situations where OLA considers a safeguarding risk is present, a risk assessment will be prepared along with a preventative supervision plan. The plan should be monitored, and a date set for a follow-up evaluation with everyone concerned.

When a student is in need of *urgent* medical attention and there is suspicion of abuse, an ambulance should be called. If the response from the emergency services states that OLA should take the child to hospital, then the DSL, with an escort, should take the child to the Accident and Emergency Unit at the nearest hospital. They should first notify MASH and seek advice about what action the MASH or the Police will take and how the parents will be informed. Normally, parents would be informed that a child requires urgent hospital attention. If the suspected abuse is sexual then the medical examination should be delayed until the MASH and the Police can liaise with the hospital, unless the needs of the child are such that medical attention is the priority. There must at all times be a responsible adult with the child, whether from OLA, MASH or the Police, if the parents are not present. All unnecessary delays should be eradicated and inaction at any level can and should be challenged.

Additional safeguards and support for the alleged perpetrator(s) and children who display harmful sexual behaviour: A child abusing another child may be a sign they have been abused themselves or a sign of wider issues that require addressing within the culture of the school. We will work with professionals as required to understand why a child may have abused a peer. It is important to remember that, as a child, any alleged perpetrator(s) is entitled to, deserving of, and should be provided with, a high

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

level of support to help them understand and overcome the reasons for their behaviour and help protect other children by limiting the likelihood of them abusing again.

OLA will consider the age and the developmental stage of the alleged perpetrator(s) and nature and frequency of the allegations when considering sanctions and support, as any child will likely experience stress as a result of being the subject of allegations and/or negative reactions by their peers to the allegations against them. Support (and sanctions) should be considered on a case-by-case basis. An alleged perpetrator(s) may potentially have unmet needs (in some cases these may be considerable) as well as potentially posing a risk of harm to other children. HSB in young children may be (and often are) a symptom of either their own abuse or exposure to abusive practices and or materials. We will work with, as appropriate, children's social care, specialist sexual violence services and the police to provide the best course of support for any alleged perpetrator(s)

On-going Support: We recognise that victims may not disclose the whole situation immediately; they may be more comfortable providing information on a piecemeal basis. We will work with victims and perpetrators to ensure that a dialogue is kept open and encouraged. When it is clear that ongoing support will be required, OLA will ask the victim if they would find it helpful to have a designated trusted adult (for example, their form tutor or designated safeguarding lead) to talk to about their needs. The choice of any such adult will be the victim's (as far as reasonably possible). A victim of sexual violence is likely to be traumatised and, in some cases, may struggle in a normal classroom environment. While OLA aims to avoid any action that would have the effect of isolating the victim, in particular from supportive peer groups, there may be times when the victim finds it difficult to maintain a full-time timetable and may express a wish to withdraw from lessons and activities. This would only be because the victim wants to, not because it makes it easier to manage the situation. If required, OLA will provide a physical space for victims to withdraw. It may be necessary for OLA to maintain arrangements to protect and support the victim for a long time and we will work with children's social care and other agencies as required.

The school will do everything it reasonably can to protect the victim from bullying and harassment as a result of any report they have made. Whilst we aim to provide the victim with all the necessary support to remain in school, if the trauma results in the victim being unable to do this, alternative provision or a move to another school will be considered to enable them to continue to receive suitable education. This would only be at the request of the victim (and following discussion with their parents or carers). If the victim were to move to another educational institution (for any reason), we will ensure that they are made aware of any ongoing support needs. Our DSL will take the lead responsibility to ensure this happens (and will discuss with the victim and, where appropriate, their parents or carers as to the most suitable way of doing this) as well as transferring the child protection file.

Unsubstantiated, unfounded, false or malicious reports: As set out in KCSIE (DfE: September 2021) all concerns, discussions, and decisions made, and the reasons for those decisions, should be recorded in writing. Records should be reviewed so that potential patterns of concerning, problematic or inappropriate behaviour can be identified, and addressed.

If a report is determined to be unsubstantiated, unfounded, false or malicious, the DSL will consider whether the child and/or the person who has made the allegation is in need of help or may have been abused by someone else and this is a cry for help. In such circumstances, a referral to children's social care may be appropriate. If a report is shown to be deliberately invented or malicious, the school will consider whether any disciplinary action is appropriate against the individual who made it as per our behaviour policy.

Working with parents and carers: OLA will, in most cases, engage with the parents of the students involved and will consider carefully what information they provide. It is good practice for OLA to meet the students' parents with the students present to discuss safeguarding arrangements to discuss what arrangements are being put in place, such as moving classes or accommodation arrangements. This will in the main be carried out by the DSL. We will also provide parents with support organisations who can help with their own trauma after a report for their child.

Supporting witnesses of sexual violence or sexual harassment: Consideration should be given to supporting children who have witnessed sexual violence, especially rape and assault by penetration. Witnessing such an event is likely to be traumatic and support may be required. Following any report of sexual violence or sexual harassment, it is likely that some children will take "sides". OLA will do all we can to ensure both the victim and alleged perpetrator, and any witnesses, are not being bullied or harassed, including during transition times such as between lessons or during transport to and from the school. Social media is very likely to play a significant role in the fall out from any incident or alleged incident. There is the potential for contact between

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

victim and alleged perpetrator and a very high likelihood that friends from either side could well harass the victim or alleged perpetrator online. When writing a risk-assessment for the students involved in an incident of sexual violence or sexual harassment, OLA will consider any additional potential support needs to keep all our students safe.

Disciplinary action: OLA will consider whether disciplinary action may be appropriate for any child/children involved – any such action should address the abuse, the causes of it, and attitudes underlying it. Disciplinary action may sometimes be appropriate, including:

- (a) to ensure that the child/children take(s) responsibility for and realise(s) the seriousness of their behaviour
- (b) to demonstrate to the child/children and others that sexual violence and sexual Harassment can never be tolerated
- (c) to ensure the safety and wellbeing of other children.

However, these considerations must be balanced against the child's/children's own potential unmet needs and any safeguarding concerns. Before deciding on appropriate action, OLA will always consider its duty to safeguard all children from harm; the underlying reasons for a child's behaviour; any unmet needs, or harm or abuse suffered by the child; the risk that the child may pose to other children; and the severity of the sexual violence and sexual Harassment and the causes of it.

OLA will, where appropriate, consider the potential benefit, as well as challenge, of using managed moves or exclusion as a response, and not as an intervention, recognising that even if this is ultimately deemed to be necessary, some of the measures referred to in this policy may still be required. Exclusion will only be considered as a last resort and only where necessary to ensure the safety and wellbeing of the other children at OLA. Disciplinary interventions alone are rarely able to solve issues of sexual violence and sexual Harassment, and OLA will always consider the wider actions that may need to be taken, and any lessons that may need to be learnt going forwards, as set out above and below.

On-going proactive work to a contextual whole-school approach: OLA's response to concerns/allegations of sexual violence and sexual harassment is part of on-going proactive work by OLA to embed best practice and take a contextual whole-school approach to such abuse. As such the OLA's response can become part of its wider prevention work. This response may include OLA asking itself a series of questions about the context in which an incident of sexual violence and sexual Harassment occurred in school, the local community in which OLA is based, and the wider physical and online environment – such as:

- what protective factors and influences exist within OLA (such as positive peer influences, examples where sexual violence and sexual harassment has been challenged etc.) and how can we bolster these?
- how (if at all) did OLA's physical environment contribute to the abuse, and how can we address this going forwards, for example by improving our safety, security and supervision?
- did wider gender norms, equality issues and/or societal attitudes contribute to the abuse?
- what was the relationship between the abuse and the cultural norms between staff and student/s, and how can these be addressed going forwards?
- does the abuse indicate a need for staff training on, for example, underlying attitudes, a particular issue or the handling of particular types of abuse?
- how have similar cases been managed in the past and what effect has this had?
- does the case or any identified trends highlight areas for development in the way in which OLA works with children to raise their awareness of and/or prevent sexual violence and sexual Harassment, including by way of our PSHE curriculum and lessons that address underlying attitudes or behaviour such as gender and equalities work?
- are there any lessons to be learnt about the way in which OLA engages with parents to address sexual violence and sexual harassment issues?
- are there underlying issues that affect other schools in the area and is there a need for a multi-agency response?
- does this case highlight a need to work with certain children to build their confidence and teach them how to identify and manage abusive behaviour?
- were there opportunities to intervene earlier or differently and/or to address common themes amongst the behaviour of other children at OLA?

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

- [Children Missing Education](#) (advice for schools)
- [UKCIS Sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Appendix 1 Youth produced sexual imagery

The practice of children sharing images and videos via text message, email, social media or mobile messaging apps has become commonplace. The DfE provides [searching, screening and confiscation advice for schools](#). The UK Council for Child Internet Safety (UKCCIS) Education Group has recently published UKCIS [Sharing nudes and semi-nudes: advice for education settings working with children and young people](#). However, this online technology has also given children themselves the opportunity to produce and distribute sexual imagery in the form of photos and videos. Such imagery involving anyone under the age of 18 is illegal. Youth produced sexual imagery refers to both images and videos where a person under the age of 18:

- creates and shares sexual imagery of themselves with a peer under the age of 18, or sexual imagery created by another person under the age of 18 with a peer under the age of 18 or an adult;
- is in possession of sexual imagery created by another person under the age of 18.

All incidents of this nature should be treated as a safeguarding concern and in line with the UKCCIS guidance '*Sexting in schools and colleges: responding to incidents and safeguarding young people*'. Cases where sexual imagery of people under 18 has been shared by adults and where sexual imagery of a person of any age has been shared by an adult to a child is child sexual abuse and should be responded to accordingly. If a member of staff becomes aware of an incident involving youth produced sexual imagery they should follow the child protection procedures and refer to the DSL as soon as possible. The member of staff should confiscate the device involved and set it to flight mode or, if this is not possible, turn it off. Staff should not view, copy or print the youth produced sexual imagery. All members of staff (including non-teaching staff) are aware of how to recognise and refer any disclosure of incidents involving youth produced sexual imagery. This will be covered within staff training and within OLA's child protection policy.

The DSL should hold an initial review meeting with appropriate OLA staff and subsequent interviews with the children involved (if appropriate). Parents should be informed at an early stage and involved in the process, unless there is reason to believe that involving parents would put the child at risk of harm. At any point in the process if there is concern a young person has been harmed or is at risk of harm a referral should be made to Children's Social Care or the Police as appropriate. Immediate referral at the initial review stage should be made to Children's Social Care/Police if;

- the incident involves an adult;
- there is good reason to believe that a young person has been coerced, blackmailed or groomed or if there are concerns about their capacity to consent (for example, owing to special education needs);
- what you know about the imagery suggests the content depicts sexual acts which are unusual for the child's development stage or are violent;
- the imagery involves sexual acts;
- the imagery involves anyone aged 12 or under;
- there is reason to believe a child is at immediate risk of harm owing to the sharing of the imagery, for example the child is presenting as suicidal or self-harming.

If none of the above applies then the DSL will use their professional judgement to assess the risk to students involved and may decide, with input from the Head, to respond to the incident without escalation to Children's Social Care or the Police. In applying judgement, the DSL will consider if;

- there is a significant age difference between the sender/receiver;
- there is any coercion or encouragement beyond the sender/receiver;
- the imagery was shared and received with the knowledge of the child in the imagery;
- the child is more vulnerable than usual i.e. at risk;
- there is a significant impact on the children involved;
- the image is of a severe or extreme nature;
- the child involved understands consent;
- the situation is isolated or if the image been more widely distributed;

Our Lady's Abingdon is committed to safeguarding and promoting the welfare of pupils and young people and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

Sexual Violence and Sexual Harassment Policy: Reviewed January 2022

- there other circumstances relating to either the sender or recipient that may add cause for concern i.e. difficult home circumstances;
- the children have been involved in incidents relating to youth produced imagery before.

If any of these circumstances are present the situation will be escalated according to our child protection procedures, including reporting to the Police or Children’s Social Care. Otherwise, the situation will be managed within OLA. The DSL will record all incidents of youth produced sexual imagery, including both the actions taken, actions not taken, reasons for doing so and the resolution in line with safeguarding recording procedures. This guidance reflects the UKCCIS Guidance (2016)

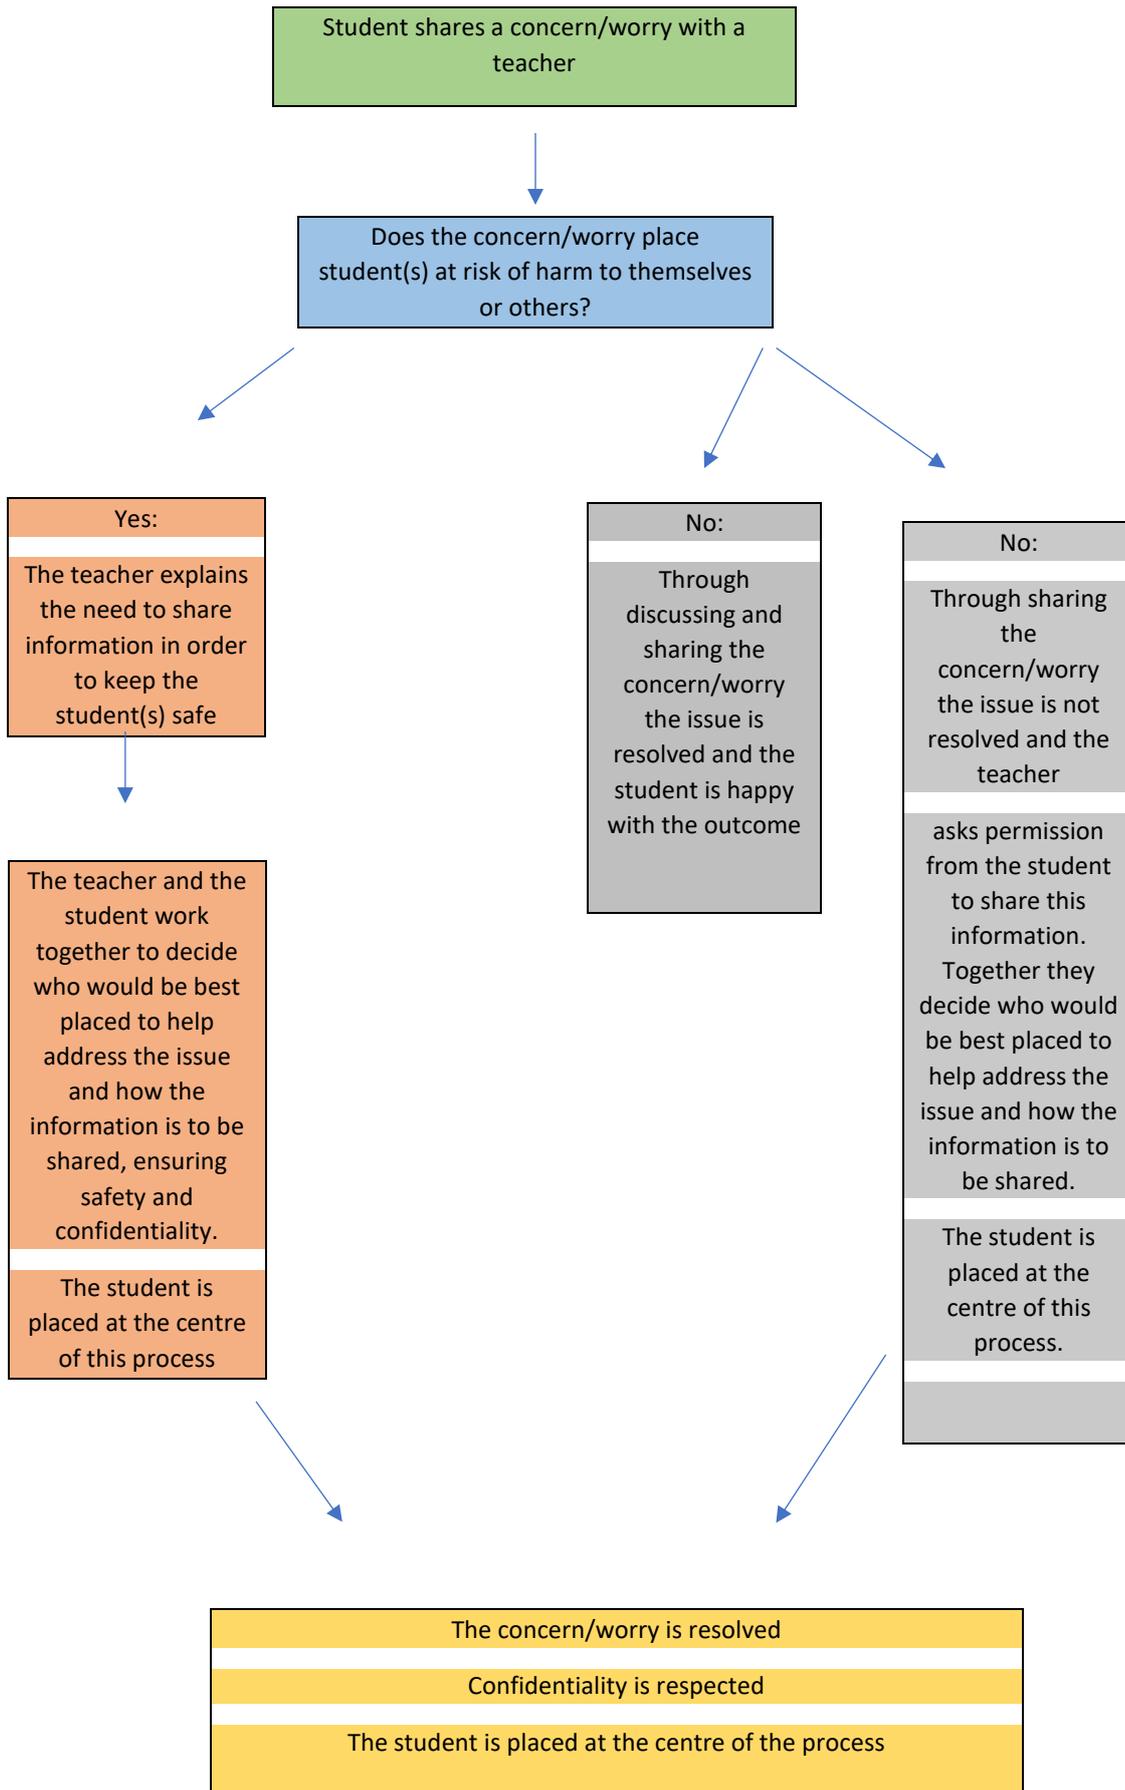

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/Sex_ting-in-School.

Removal of sexual images/videos: If the incident involves sexual images or videos that have been made and circulated online, the victim can be supported to get the images removed through the [Internet Watch Foundation \(IWF\)](#). The IWF will make an assessment of whether the image is illegal in line with UK Law. If the image is assessed to be illegal, it will be removed and added to the IWF’s Image Hash list.

Education: Teaching about safeguarding issues in the classroom can prevent harm by providing children with skills, attributes and knowledge to help them navigate risks. OLA will provide children with opportunities to learn about the issue of youth produced sexual imagery, as part of its commitment to ensure that they are taught about safeguarding, including online, through teaching and learning opportunities – as also referred to in our e-Safety Policy.
